DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

#47 is a detached, three story brick, rectangular building, four bays wide and approximately five bays in depth. All brick work is in common bond.

A newer door with a paneled enframement occupies the right (North) bay. Remaining original windows in the front facade are of 6/6 sash with flat arches of thin brick voussoirs, as above the door. Modern alterations have added glass brick windows on the front and left sides with no windows on the right side. The roof slopes gently to the rear with side wall parapets stepped down. The front roofline has a very attractive overhanging cornice supported by scrolled modillions bearing side rosettes with a row of large dentils beneath. The brick frieze is raised and decorated by a moulded band.

The brick faced foundation probably is of fieldstone.
